Welcome to Spring and Daylight Savings Time

Spring is here! What this means besides budding flowers, longer days and sneezes, is that elections are right around the corner!

We are pleased to inform everyone that we have received tested and trained on the new equipment. We are confident it will be a smooth roll out to voters and are about using the new system in the upcoming Primary Election on August 28th and the General Election on November 6th.

The Florida Legislature has completed the 2018 session. In the world of elections, an important bill was passed enabling Florida to become a member of ERIC (Electronic Registration Information Center). ERIC is a multistate partnership that uses a sophisticated and secure data-matching tool to improve the accuracy and efficiency of state voter registration systems. Florida will join 22 states and the District of Columbia in participating in the program that was established in 2012. These reports will be a valuable for the elections office to maintain accurate voter registration rolls on a continuous basis.

A March mailing of Vote-by-mail request forms were sent to all Citrus county registered voters. The current voter information on file is on the form and can be verified by the voter. If you have any questions contact the office.

Be sure to visit our website for all up to date information about the upcoming elections. Contact us with your election questions at 341-6740 or email vote@votecitrus.com.
